“Talent and Career Management for Supply Professionals”

Tuesday, November 9

Challenging economic conditions and uncertainty are reshaping the face of the job market and raising concerns for many workers around the globe. Supply management organizations are working to ensure that they are staffed with individuals who have the requisite competencies to meet their needs. Supply professionals are searching to find and retain positions that provide job satisfaction and career advancement. This DVD from the recent ISM satellite seminar will explore the talent management, career management, succession planning and other human resource challenges in today's supply management arena. Seminar segments include:

Overview – Why Do Talent and Career Management Matter?

Talent and Career Development

Performance and Results Management

Building on Your Strengths and Enhancing Your Portfolio

By attending this continuing education, you will earn four (4) Continuing Education credits!

Remember that whether or not you have your C.P.M. and or CPSM designation, your membership in NAPM-Central Illinois provides you many opportunities to enhance your professional and personal skills. Take advantage of the many opportunities to further your education, develop your skills, network with peers, and advance yourself in the supply management profession.
